# Lab - Search NOC Certifications and Jobs

In this lab, you will use the Internet, a newspaper, or magazines to gather information about network operating system certifications and jobs that require these certifications.

Web sites such as Monster.com, Indeed.com, Simplyhired.com, or Linkedin.com can be used.

a. Use the Internet to research three different network operating system certifications. Based on your research, complete the table below.

| Company | Network Operating System(s) covered | Certification(s) title | Courses/Training required for Certification |
|---|---|---|---|
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |

b. Use the Internet, a newspaper, or a magazine to find at least two network jobs available in your area. Describe the network jobs and the required certifications needed for the position.

c. Which job would you prefer? List reasons for your selection.
